Figure 2: Leroy

- *teeth*
- Gastropod
- Ostracod
- Pollen zonation
- AP warm or humid
- AP cold or dry
- NAP
- Pollen concentration

- Mz 1: permanent waters
- mz 2: stronger influence of margins
- mz 3: terrestrial
- mz 4: permanent waters
- mz 5: marshy

- Metacypris cordata: freshwater
- 
- Cyprideis torosa + other saline species

- Total dispersion
- Bank collapse
- Climatic cycle
- Homogenous suspensates
- Parts of an interglacial
- Parts of a climatic cycle
